

SAMARITAN 350P

COMPACT, EASY-TO-USE, LIFESAVING TECHNOLOGY

Sudden Cardiac Arrest (SCA) is a leading cause of death globally. Response time is critical for survival. The samaritan® PAD 350P is designed especially for use in public areas by providing a sophisticated defibrillator for adult or pediatric use, inside a lightweight and easy-to-operate system.

EASY-TO-FOLLOW GUIDES

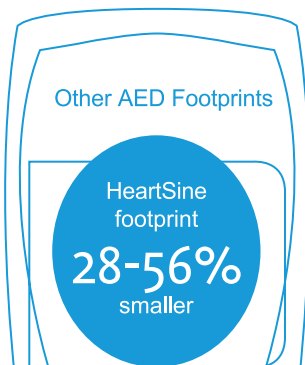

User-friendly. The samaritan PAD 350P features easy-to-understand visual and voice prompts that guide a user through the process including CPR coaching.

Two-button operation. Only two buttons, ON/OFF and SHOCK, are required for straightforward operation.

Always ready. A System Status Ready Indicator flashes to show that the complete system is operational and ready for use. The device automatically runs self-check each week.

COMPACT IN SIZE, BIG ON ABILITY

Highest level of dust/moisture protection. The samaritan PAD has a rating of IP56, providing the 350P defibrillator with the highest level of protection from dust or moisture ingress in the industry.

Durable. The samaritan PAD 350P resists shock and vibration and comes with a shock-proof carry case free of charge.

Advanced technology. The samaritan PAD 350P utilizes proprietary electrode technology, advanced and stable firmware, and proprietary SCOPE™* Biphasic Technology to assess rhythm and recommend defibrillation is necessary.

PAD PAK TECHNOLOGY

Low cost of ownership.

Pad Pak cartridge has a shelf life of four years from date of manufacture, offering significant savings over other defibrillators that require separate battery and pad units.

Two parts, one expiration date.

Cartridge combines battery and electrode pads, with one expiration date to monitor.

Great for children.

The HeartSine PAD's built-in intelligence and unique pediatric Pad-Pak ensure the appropriate energy level is delivered for children.
